

Partial Task Trainer Mini Workshops 2016-2017

NEW at the Simulation Lab this year is our Partial Task Trainer Mini Workshops! These workshops allow for hands-on experience with some of our most popular task trainers. Our team will demonstrate how to effectively utilize these task trainers and how to possibly incorporate anyone into your teaching needs. Sign up for one or more of the hands-on mini workshops, see below for a list of task trainers and corresponding dates!

Objectives:

1. Recognize the task trainer capabilities;
2. Effectively utilize the task trainer;
3. Gain insight on how to incorporate task trainers in your teaching to achieve specific educational goals.
